SUMMARY

Full-Stack Developer with hands-on experience in building scalable, user-centric web applications using the MERN stack. Skilled in designing responsive UIs, developing secure backends, and integrating third-party APIs. Strong foundation in React.js, Node.js, Express, and MongoDB, with proven ability to optimize performance, manage state, and deploy applications to production. Passionate about solving real-world problems, writing clean and maintainable code, and continuously learning new technologies.

EDUCATION

Master of Computer Applications (MCA) 2025 – Present | Sirsa
Chaudhary Devi Lal University

B.Sc. Computer Science 2021 – 2024 | Fatehabad
Manohar Memorial PG College

WORK EXPERIENCE

Full-Stack Development Intern 06/2025 – 09/2025 | Virtual
Unified Mentor

- Developed end-to-end full-stack projects including *Expensely* (expense tracker), *Sonexa* (music streaming app), and *Yovo* (social media platform).
- Designed and implemented RESTful APIs, authentication systems, and database models using Node.js, Express.js, and MongoDB.
- Built responsive, modern UIs with React.js, Tailwind CSS, and state management tools, ensuring smooth user experience across devices.
- Integrated third-party services such as Cloudinary, Firebase, and Nodemailer for media handling, storage, and email notifications.
- Integrated socket.io for real-time messaging feature.
- Delivered projects from scratch, showcasing ability to handle the complete development lifecycle — frontend, backend, deployment, and optimization.

TECHNICAL SKILLS

Frontend Development:

- HTML5, CSS3, SCSS, Tailwind CSS, JavaScript (ES6+)
- React.js, Redux, Firebase, Responsive Design, Accessibility, SEO

Backend Development:

- Node.js, Express.js, RESTful APIs, MongoDB, Mongoose ODM

Security & Auth:

- JWT, bcrypt, CORS, Express-rate-limit, Redis

Version Control & Hosting:

- Git, GitHub, Vercel, Render

Tools & Libraries:

- Cloudinary, Nodemailer, Motion, socket.io, Postman, Chrome DevTools, axios (interceptor)

SOFT SKILLS

- Problem solving
- Adaptability
- Attention to detail
- Time management
- Agile learning

PROJECTS

Expensely – Smart Expense Tracker

<https://expensely-blue.vercel.app/> 

A full-stack finance management application to track, filter, and analyze personal expenses.

- Transaction Management: Add, edit, delete, and categorize expenses with intuitive UI.
- Search & Analytics: Integrated search functionality, charts (Recharts), and real-time insights into user spending.
- Advanced Filtering & Pagination: Implemented lifetime/monthly views, account-based filters, and modern pagination with ellipses for seamless navigation.
- Impact: Demonstrates ability to build practical, data-driven apps with scalable backend logic and polished frontend workflows.

Sonexa – Music Streaming Platform

<https://sonexa-chi.vercel.app> 

A complete music streaming application enabling secure uploads, discovery, and playback.

- User Authentication & Authorization: Persistent JWT sessions, protected routes, and secure registration/login with bcrypt.
- Media Handling: Audio uploads/deletions via Cloudinary with backend validation and signed requests.
- Music Discovery & Categorization: Grouped by genre (e.g., Trap, Classical, Afro-Cuban), trending/latest filters, and paginated results.
- Global State Management: Leveraged React Context API for handling user sessions, playback, and navigation.
- Interactive UI: SCSS-based responsive layouts with animations (Framer Motion) for smooth browsing and playback.
- Impact: Delivered a full-featured media app showcasing expertise in secure file handling, streaming workflows, and frontend optimization.
